

## **SALES NOTICE – ISUZU’S CONTINUED PRESENCE IN MSHA-COMPLIANT DIESEL ENGINES**

**PLYMOUTH, MICHIGAN, JANUARY 7, 2004** – Isuzu Motors America, Inc. is pleased to announce its continued support of MSHA-compliant diesel engines.

Isuzu engines are available today for both MSHA Part 7E-A and Part 7E-B. New adaptations of Automatic Transmissions will be available as well.

The MSHA-approved Isuzu engines are as listed:

<u>7E-A and 7E-B</u>	<u>7E-B Only</u>	
6BG1	3LD1	4LC1
	4LE1	C240
	4JG1T	4BG1T

Each model is approved for Part 7 Subpart E category A and/or B (as indicated above) of Title 30 of U.S. Code of Federal Regulations. The 6BG1 engine is available as permissible from Dry Systems Technologies, Chicago IL.

Isuzu diesel engines will continue to be available for use in new OEM applications as well as for replacement of existing in-service engines.

Please contact us for more information related to MSHA and Isuzu diesel engines. Direct all inquiries to your local distributor or to:
